Whole House Energy Efficiency Solutions from Aran Services

LOFT INSULATION WITH ARAN SERVICES

Problem

The householders found this property difficult to keep warm in the winter and were left with high energy bills.

Solution

A Green Deal Assessment recommended loft insulation and the householder decided to self-fund the install. Aran Services insulated their loft with 270mm mineral wool and included a boarded area for storage. Easy Vents were also fitted to ensure the loft space remained adequately ventilated. The Aran Services team also ensured that pipes and water tanks were properly insulated to avoid the risk of freezing over winter.

Benefit

A warmer home that is now cheaper to heat. Loft insulation can save as much as £180 per year on your fuel bills and reduce carbon dioxide emissions by 730kg a year.

Units 1-6, The Old Station, Higham, Bury St. Edmunds, Suffolk, IP28 6NE
