

# Heating Improvement Case Study

MR SHOKAR - KENT

What made you decide to have heating and/or insulation upgraded in your home?

"It was needed to make energy bills cheaper in the long run"

How did you find the communication from Aran leading up to the install?

"Excellent A+ 10/10"

Were you aware that the insulation was partially funded through the ECO Scheme?

"Yes"

Would you recommend others taking advantages of the ECO scheme?

"Yes"

## Warm Homes Heating Installation - November 2019

The Warm Homes Scheme is a partnership project between Kent County Council and the local councils to help and support residents in Kent and Medway saving money and energy in their homes.

For Kent and Medway residents the scheme can help private homeowners, tenants and landlords providing the opportunity to insulate their homes and improve heating to make it more energy efficient and save money on their energy bills.

Grants are available to upgrade your home for Cavity Wall Insulation, Loft/Room in Roof Insulation, Solid Wall Insulation and Heating upgrades including broken boiler replacements or brand new central heating systems, like Mr Shokar with many grants covering 100% of the cost of works.

You can find out more information and how to apply through Aran or call the Warm Homes Helpline on 0800 170 1174.

Have you noticed any benefits of the install already?

"My home is warmer and cheaper to run"

"Booking the work was very easy, David was on time everyday over the three days of work. He was good at his job and my house was left in a good state.

Things were very easy to organise with Aran, thank you for your help"
